

“A Systematic Approach to Treatment of the Entire Airway - Building On Mandibular Repositioning”

We are pleased to offer you an exciting and informative webinar featuring the OASYS Oral/Nasal Airway System and the use of its unique capability of addressing the airway at multiple areas of limitation.

The OASYS has been shown to be effective for treating all levels of OSA from Upper Airway Resistance Syndrome (UARS) to Very Severe Obstructive Sleep Apnea (OSA); (Study Published Deepak Shrivastava¹ · Springer 2018) — “Efficacy of Oral Appliance Therapy in the Treatment of Severe OSA in CPAP Resistant Cases”.

This webinar presented by Dr. Mark Abramson and Dream Systems Dental Sleep Laboratory, will show the uniqueness of our human evolution for upright posture and speech, which has lead to both TMD and OSA and how the OASYS has been designed to give dentists the ability to effectively address these issues, impacting the health of so many of your patients.

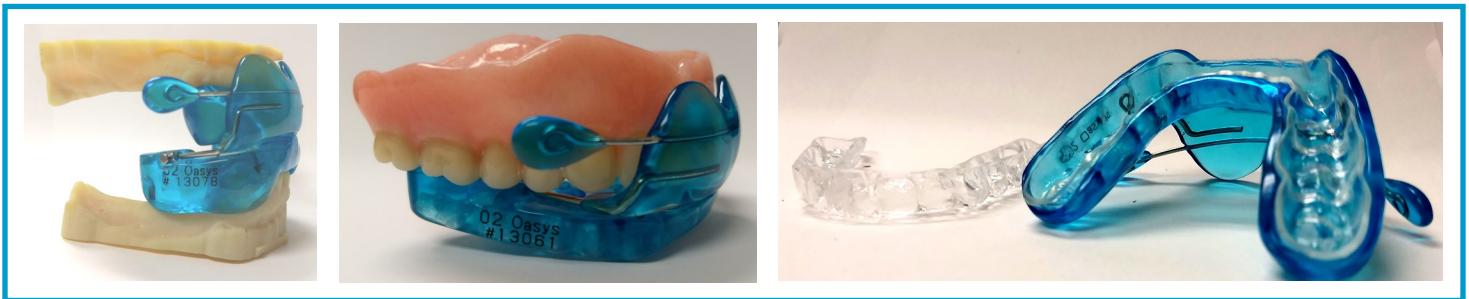

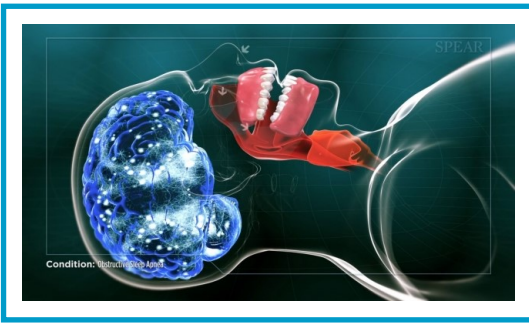

You will learn how the OASYS unique design allows it to be adapted to integrate with Invisalign treatment, used with full upper denture cases, used with minimal dentition on upper and lower arches and in combination therapy with CPAP.

Also the exciting use of the tongue guidance feature to treat speech and tongue thrust in both children and adults.

Date: Friday, May 15, 2020

Time: 9:00 AM Pacific Time, 12:00 PM EST

To Register: <https://www.anymeeting.com/AccountManager/RegEv.aspx?PIID=EE58DE8883463F>

**Mark Abramson DDS
D.ABDSM**

Mark Abramson DDS, D.ABDSM, Diplomate of the AAOP, APM, AADSM, Executive Board Member of AAPMD and a Fellow AACP. He has a private practice in Redwood City, California. Dr. Abramson is on faculty with Stanford University and developed the FDA cleared OASYS Oral/Nasal Airway Systems and the Medicare Compliant OASYS Herbst Appliance.
